## APPLICATION FOR INSTALLATION OF A LIQUEFIED PETROLEUM GAS STORAGE TANKS

(Permit Fee \$25.00 payable to "Town of Hampton")

Permit is required for the installation of an LPG container exceeding 30 gallons individual water capacity or combined containers exceeding 60 gallons water capacity. Application must be returned with the following information to obtain a permit to install:

- a. Site plan showing building(s), lot lines and tank location. This plan can be hand drawn.
- b. Indicate the measurements in feet the LP storage tank from building(s) and nearest lot line, other structures, sources of ignition and openings into buildings.
- c. Indicate the size and type of tank(s).
- d. Show supply line(s) from tank to building(s).

Temporary installations (under 30 days) still require a drawing to be on file at the fire department within five (5) days after installation which addresses items a, b, c & d. No permit or permit fee is required for temporary installations.

Installation shall comply with NFPA 1, and NFPA 58, (editions as adopted by NH Fire Code SAF-C-6000 and local ordinance).

**Please note: All gas piping and device installations require an additional permit from the Building Department.**

**No work shall begin until a permit has been issued. All inspection requests require 48 hour minimum notice.**
